Organiser:

OAV - German Asia-Pacific Business Association is organising the cross-industry business mission 'Emerging Bangladesh' from 6 to 10 April 2025.

OAV acts only as the organiser of the trip. All (partial) services, such as flights, hotels and similar, are only arranged.

In particular, reference is made to the hotel and transport-specific regulations on any cancellations. Contractual relationships are only established between the participants and the respective service provider

Emerging Bangladesh – New opportunities from manufacturing to research & development

Cross-industry business mission

Dhaka-Chattogram

6 to 10 April 2025

OAV-Business Mission „Emerging Bangladesh“ 06 to 10 April 2025

Bangladesh with its 170 million inhabitants is one of the most dynamic markets in Asia-Pacific with growth rates of six to seven per cent in recent years – yet is often overlooked. The interim government of Nobel Peace Prize Winner Prof. Muhammad Yunus strives for a comprehensive reform agenda attracting foreign investment. Bangladesh is expected to cross the threshold from a ‘Least Developed Country’ to a ‘Middle Income Country’ in 2026 thanks to its considerable economic development successes.

Classic export goods from Bangladesh continue to be clothing and textiles as well as natural fibres and related products. However, bicycles and pharmaceutical products from Bangladesh have also made a name for themselves internationally. In the infrastructure sector, numerous expansion and modernisation projects offer investment opportunities for the German construction and supply industry. Initial investments are being made in high-tech sectors such as ICT or in research and development. A lively start-up scene has developed.

Favoured by duty-free EU market access, Germany is one of the main target countries for exports from Bangladesh and products ‘Made in Germany’ enjoy an excellent reputation in Bangladesh. Take advantage of this growth market for your business!

OAV's business mission provides German companies with contacts to political and economic decision-makers in Bangladesh. Visits to local and German factories together with networking events will highlight specific business potential. Delegates also will have a chance to take part in the Bangladesh International Investment Summit 2025. The mission will be accompanied by representatives from the Federal Ministry for Economic Affairs and Climate Action and the Federal Foreign Office.

- joint closing dinner
- individual departure

Individual appointments and company visits can then be arranged on request.

Visa:

A visa is required to enter Bangladesh. OAV will assist you with the smooth application process.

Flights and Hotels:

Arrival and departure are to be organised individually, for the domestic flights contingents are booked via the OAV. In Dhaka and Chattogram, hotel allotments are blocked.

Costs:

A participation fee of 2,000 euros (OAV members) or 2,500 euros (non-members) is charged for participation. Small companies can apply for financial support. In addition, the companies bear the individual travel, accommodation and catering costs as well as the local transport costs incurred.
