

Bhutan Agri-Food Trade & Investment Forum (BATIF) 2024

15 - 19 MAY

Pemako & Centenary Park

The Bhutan Agri-food Trade and Investment Forum (BATIF) 2024 will leverage opportunities for investment in Agrifood Systems in Bhutan.

WE SEEK

- to identify key collaboration and dialogue to accelerate economic growth, ensure social inclusion through agricultural transformation and sustainable management of Bhutan's vast natural resources.
- investments and partnerships to identify opportunities to contribute to capacities and scaling of Bhutanese agri-food system ventures.
- to facilitate the efforts to engage with policymakers, investors, and development partners in mobilizing support and operationalizing national agricultural strategies and investment plans.
- accelerate critical means of implementation — technology, data and information, capacity development, funding and financing — for identified products and programs.

Agenda Overview

Keynote Presentations: Gain insights from distinguished national and international experts addressing pertinent themes within Bhutan's agri-food sector.

Panel Discussions: Convening governmental representatives, development partners, and subject matter specialists to delve into critical topics concerning Bhutan's agri-food and trade domains.

B2B Meetings: Facilitate bilateral engagements with selected partners of your choice.

Exhibition: Explore a curated display featuring Bhutanese agri-food products, highlighting their diversity and quality.

Food Fair: Indulge in a culinary journey featuring delectable snacks and delights sourced from various regions of Bhutan.

Recipe Contest: Witness the creativity and innovation showcased through culinary creations utilizing indigenous ingredients.

“

Over 100 participants from the government, business and industry leaders, international organizations, development partners, civil society leaders, experts, youth representatives, social entrepreneurs focused on agri-food systems.

”

Our Purpose

The agriculture sector is a catalyst to reimagine and design an ecosystem of food and trade that prioritizes wellbeing and ecological stability. This endeavor requires bold investments, accelerated scientific innovations, and a renewed commitment to building a world free of hunger, strife, and poverty.

Join us in shaping a future where Bhutan's food system not only sustains us economically but also nurtures our environment and enriches the lives of all Bhutanese.
