

7th Session OAV Working Group TVET: Focus Country China

Thursday, 6 July 2023, 09:00-10:45hrs CEST,
Online via MS Teams (105 Min)

We are delighted to invite you to the 7th session of the OAV Working Group Technical and Vocational Education and Training (TVET). This webinar, organized by the OAV in collaboration with iMOVE, aims to address the challenges of securing and training a skilled workforce in the People's Republic of China. During this session stakeholders of the German vocational education and training will present themselves, showcasing their experiences in the region.

The webinar will commence with a joint presentation by iMOVE and the AHK Greater China, providing a comprehensive overview of vocational education in China. They will highlight the challenges and opportunities for companies and educational institutions. After that, we will delve into the services offered by The Central Agency for Continuing Vocational Education and Training in the Skilled Crafts (ZWH) in China and explore the successful implementation and operation of dual apprenticeship programs at Festo China.

The following panel discussion will provide an interactive platform for participants to engage with the speakers and ask questions. It will be an excellent opportunity to exchange insights, share experiences, and gain valuable knowledge in the field of TVET in China.

Please feel free to forward this invitation to your colleagues responsible for human resources and vocational education and training.

We look forward to your participation!

Registration

Participation in the event is free of charge but requires prior registration via this [link](#). You will receive the dial-in data for the seminar after registration.
