

China Update: Autonomous Driving Trends in China's Greater Bay Area

- 22 July 2021, Webinar via Zoom (75min)
- Presentations followed by a panel discussion and Q&A
- Language: Chinese/English (simultaneous translation by **Ms. Zhu Ping, confirmed**)

Speakers:

- Mr. Sebastian Ibold, Project Director, GIZ Sino-German Cooperation on Low Carbon Transport, **confirmed**
- Mr. Jackson Lam, WeRide, Global Partnerships – Director International Business Development, **confirmed**
- Mr. Liwen Xu, Executive Vice-President, Baoneng Motor R&D Center (Guangzhou), **confirmed**
- Mr. Zhengming Wu, Vice Director, Guangzhou Intelligent Connected Vehicle Pilot Zone Operation Center, **confirmed**

Participants:

- Corporate members and institutional network of OAV
- Targeted invitation of relevant public institutions
- Targeted invitation of further companies, institutions and associations for which autonomous driving is a relevant topic

Guiding questions:

- What is the current state of autonomous driving in China?
- How will traffic in cities change with autonomous driving solutions? Can it benefit the environment? What are lessons learned until now? How safe is autonomous driving and how is its safety ensured?
- How does the (city) government implement regulations and (legal) frameworks for autonomous driving? What was/is the roadmap for government institutions and companies? What frameworks do exist? What are challenges/solutions/best practices?
- What are possible international cooperation opportunities in the field of autonomous driving?

(See next page for detailed agenda)

Agenda:

- 5min **Welcome and Opening**
Mr. Tim Posert, Regional Manager Greater China & Mongolia, OAV – German Asia-Pacific Business Association
- 15min **Economic, administrative and social effects of autonomous systems on future urban transportation ecosystems**
Mr. Sebastian Ibold, Project Director, GIZ Sino-German Cooperation on Low Carbon Transport
- 10min **Autonomous Driving in the Greater Bay Area – Developing a clean future of urban transportation**
Mr. Jackson Lam, WeRide, Global Partnerships – Director International Business Development
- 10min **E-Mobility in the Greater Bay Area – Developing a clean future of urban transportation**
Mr. Liwen Xu, Executive Vice-President, Baoneng Motor R&D Center (Guangzhou)
- 10min **Autonomous Driving Implementation – Legal aspects, infrastructure requirements, administrative challenges and new standards**
Mr. Zhengming Wu, Vice Director – Guangzhou Intelligent Vehicle Pilot Zone Operation Center & Association
- 15min **Panel discussion and questions from the audience**
Moderation: Tim Posert, OAV
- 0min **End of Event**
