Company Profiles

Khmer Organic Cooperative

Khmer Organic Cooperative (KOC) was founded in 2015 and has 76 employees. The organic products are supplied from local farmers and agricultural cooperatives; besides KOC owns 2 farms. These farms also serve as educational centers for farmers who receive a simple hands-on training. Internal Control System and traceability system has been established since 2016 to meet the organic standard requirement as result KOC has obtained organic certifications to export to the EU, US, and Japan.

Confirel

Confirel was founded in 2001 and has 76 employees. The initial activity of the company is the production of palm sugar which obtained an award at Natexpo Salon in 2005. The company has today a various range of products: palm tree sugar, pepper, candies, wine, vinegar, spirits, pepper sauce, pepper herbal tea. In 2017, HACCP certification was awarded to Confirel for the processing and distribution of organic palm sugar, Kampot pepper (black, red and white), KEM Probiotics, palm tree syrup and Kampot pepper sauce. This certification was obtained after an audit conducted by TUV Rheinland.

Kirirom Food Production (tbc)

Kirirom Food Production was founded in 2013 and has 500 employees. The company focused on mango production thanks to the high fertility of the land near Kirirom national park and good climate conditions. To develop the company and avoid the oversupply of fresh mangos due to a limited domestic market, Kirirom Food Production started food processing operations by producing dried mangos for export. Nowadays, the company has diversified its products with dried pineapple, dried papaya, dried Jackfruit and Frozen Mango.
